

Discovering the Adult Baby in you - the joys, the struggles, the highs and the lows.

Have you ever wanted to be forced to be a baby?

Ben Pathen already has three great ABDL novels published with us. Now comes his fourth – The Hypnotist

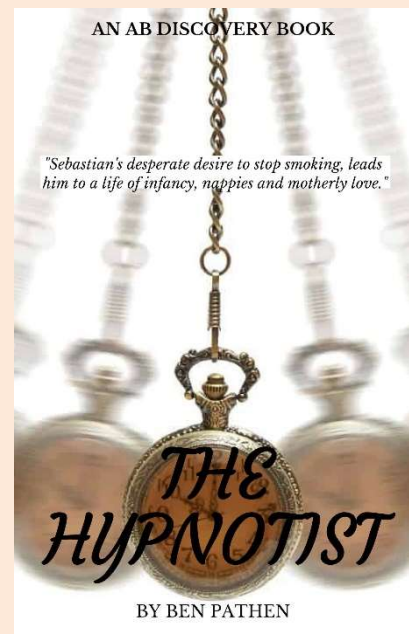

A new 55,000 word ABDL novel

Sebastian has a serious problem. His smoking is out of control and threatens to shorten his life. He is single, alone and desperately wants a relationship and knows that heavy smoking is not exactly an attraction to a smart, attractive and sexy woman like Alicia.

But Alicia isn't a friend. She is his hypnotherapist. While secretly admiring her and even more secretly lusting after her when she wears leather, Sebastian decides to get rid of his smoking addiction and spent some quality time with the woman he lusts after.

She gets rid of his smoking alright... But something else happens to him that will alter the trajectory of his entire life... for the better.

He becomes a baby. Completely and permanently.

What have I missed out on?

It has been a busy six weeks here, publishing many new books in addition to the above and in case you may have missed them, here they are!

Like most adult babies, you probably wet the bed for a very long time and possibly, still do.

You are not alone. Many of us still wet the bed and often, we simply don't let it concern us.

Maybe for you, night diapers are an option and on those other nights, a wet bed ensues. You may be proud of that. If so, this collection is for you.

Bedwetting can be an enigma. Hear what a famed psychologist wrote about it.

Dr Donald Winnicott: "If by bed-wetting the child is making effective protest against strict management, sticking up for the rights of the individual, so to speak, then the symptom is not an illness; rather it is a sign that the child still hopes to keep the individuality which has been in some way threatened.'

"The best collection of Wet Beds, Wet Mattresses and Bedwetters themselves, anywhere to be found!"
