

Discovering the Adult Baby in you - the joys, the struggles, the highs and the lows – and the journey.

Home Detention

Jordan is a troubled teen with a criminal conviction that has landed him in home detention for twelve months, barely escaping a prison sentence.

Taking the opportunity that has been presented, his mother and sister choose to go through a documented program to regress him to an infant and then grow him back up again without the pain and troubles of his past.

Along the way, they discover that the great hidden secret is that Jordan is actually a girl and a large part of his inner distress.

A masterfully written story that treats a complex issue with empathy and compassion and while just fiction, it is still a story that reaches into our being because maybe, there is more truth to it that we realise.

The Snoop

Nathan was a naturally curious man. A carpenter by trade, he came to install an expensive kitchen in the home of Jordan, a home-based businesswoman.

Unaware that a wi-fi security system was in place, he snooped around the house looking in drawers and cupboards to see what could be found.

What he found was astonishing: adult-sized baby clothes, diapers and plastic pants.

He had no idea why anyone would possibly want to dress as a baby.

Or did he?

Angela's 30 Day Wet bed Challenge

Angela is a bedwetter. Motivated by the desire to embrace her bedwetting, she has decided to keep the sheets on the bed, display the stains and feel proud that she wets at night. If you think this is uncommon, then think again. The response to this has been overwhelming, with a lot of people revealing that they too go many days between washing wet sheets, are also proud of their 'overlapping stains'.

One of her primary motivations were the three Forrest Grant books on bedwetting and the inspirational information and stories about something most people hide from in shame.

Diapers or Nappies? Which word is it for you?

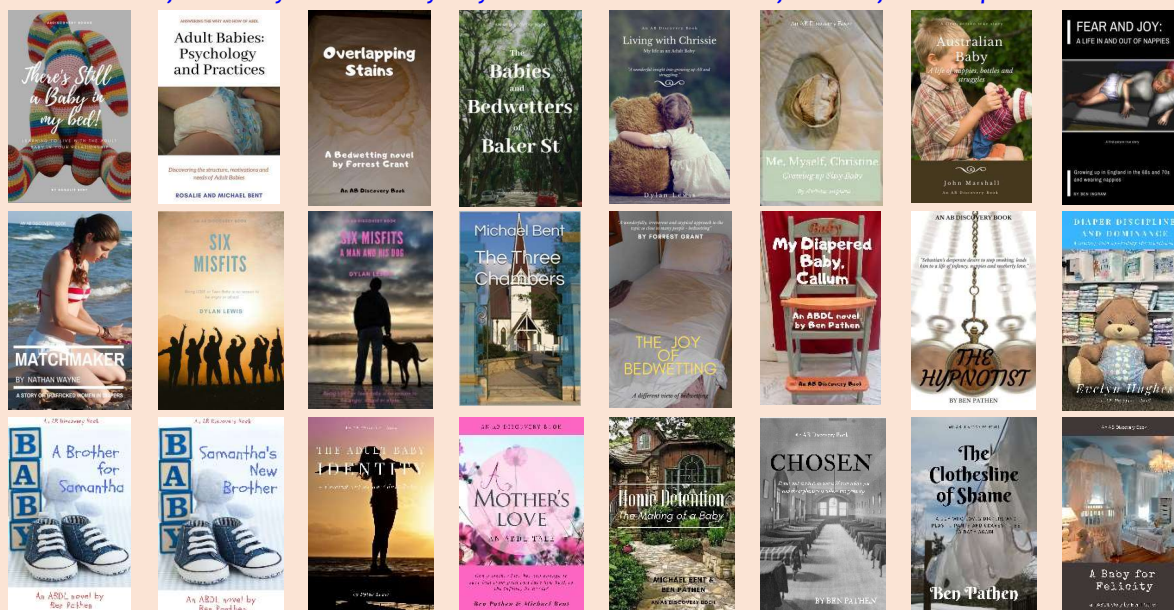

For each of us, the power of words is incredible. Growing up in North America, it is the words 'diaper' and 'pacifier' that causes us to react to their babyish attraction. But for others, in the

UK or Australia, it is the words 'nappy, dummy and cot' that cause us to remember our infancy and to long for it once again.

AB Discovery aims to meet everyone's need as best as possible. To that end, most of our fiction books have 'diaper versions' now as well as the original nappy ones. Check out which version suits YOU!

Perhaps you are interested in some of our books, but unsure if they are what you are after or not? We now have preview sample PDFs of many of our books and you are free to try out as many as you want! Click below to find the free sample.
