

Well, we are all still here, mostly indoors and trying to fill our time. It is a time for reading, but it is also a time for...

#### WRITING!

Every ABDL has a story to tell. How did it start? How did you start wearing diapers? When did you actually understand that you are a baby? How did your parents or friends handle it, or did you keep it to yourself? Has it enhanced your life or damaged it?

Why don't you consider writing either a short story of your life or longer? If you want to discuss this or need help, contact us at [abdiscovery@adam.com.au](mailto:abdiscovery@adam.com.au) or click the link [here](#).

For subscribers only, we are offering a fabulous Ben Pathen book for just \$2!

**"Baby Solutions"** is the story of a medical program that is designed to confront violence and anti-social behaviour by reverting offenders back to babies and then growing them up again. But what if they *don't* all actually grow up again?

#### The AB Discovery Bedwetting competition is still on!

It's not everyone's cup of tea, but there are a LOT of ABDLs that still wet the bed and more than a few of them still do it on the sheets. It can be a very therapeutic experience for them and part of who they identify as. To that end, in concert with AB Mommy Lillith, we are running a *bedwetting competition* for the month of April. Click [here](#) for full details and be part of it! We even have prizes!

We are trying to make our books and products as accessible to you as we can at this time. Being stuck at home can be boring and we want to make it as easy as possible for you to read quality ABDL fiction and non-fiction. To that end, we have significantly reduced all of our prices on all of our platforms. And we now have three bulk buy discount offers from our website for you to consider in PDF format.

**We have a new survey!**

AB Discovery has eight surveys on AB DL issues and now, we have a *new survey* that deals with the current global Coronavirus crisis.

As adult babies, we face some unique difficulties and challenges and the current near-global lockdown raises a number of issues for ABs. This survey aims to not only discover how we are all handling it now, but also to see how we change over time since the lockdown isn't ending any time soon.

Click [here](#) to check out all of our surveys and to participate. Download results of the existing surveys [here](#).
