The Visit: A Sissy Baby Story

Introductory Spanking

Naked and ready for sissyness, Penelope Pansy is once again standing in front of Mummy Governa Raj, waiting for her reintroduction to sissy hood through the ancient traditional means of an extended over-the-knee spanking and paddling. Mummy Governa ridicules the sissy, a sissy in a man suit. She gazes at sissy's nappy area, an area that every man should be proud of, an area that can give endless pleasure to a Lady, but it is not a man who stands in front of her - it's a sissy, a pathetic, humble, humiliated sissy, a sissy who is a disgrace, a sissy who knows it is totally unsissy-like to have even a speck of hair in the nappy area. Yes, the nappy area for sissy is to be a fully napped, totally incontinent sissy baby. Mummy's instructions were simple, so simple that even a sissy should be able to follow them:

Keep the nappy area totally clean and smooth at all times.

Wear pink panties

Ensure your small pathetic tiny teat is no more than one inch long.

Sissy, needless to say, could do none, not even one. She tried, of course, but was a failure as always, an abject failure. Mind you, the teat was probably only extended out to its maximum three inches!

Sissy places herself over the knee of Mummy. She knows that it is 30 full minutes of spankings, scoldings and verbal abuse. Her future life laid out in front of her, 30 full minutes over the knee of Mummy all interspaced with spankings. Spankings and scolding, scolding and spanking, upwards of 200 spanks in the 30 minutes all to be polished off with a sharp quick paddling. Finally, it is all over, her pert bottom red hot from the spanking, not too hard but a constant non-stop rhythm. While still in position, the over-the-knee sissy baby is told she will never be spanked nor paddled ever, ever again. No, in future, all punishment thrashings will be with the yellow strap or cane, Even her maintenance spanking will be with the yellow strap. No room for dilly-dallying, no room for ambiguity, the strap or

the cane, nothing else. She is ordered off the knee, told to kneel on the floor and to put her head down to prepare to be re-introduced to the yellow strap. Three strokes follow from the instrument that will be forevermore close to her bottom.

Even then, she is not finished. Each and every day at morning nappy time she will get one full-force stroke of the cane as her constant daily reminder to be respectful to all Ladies, to please, honour, worship and respect all Ladies, to constantly be subservient, obedient and courteous in their presence. She braces herself for the first stroke of a lifetime, once a day, 7 days a week, 52 weeks of the year, 365 days a year. One daily lash of the cane as a reminder of her duty! She prepares herself for the stroke. She hears the swish of the cane, the dreaded practice strokes and then she feels the cane strike her derriere. Her soft delicate sissy bottom is now on fire from her beating. She has never had a cane stoke like it before. She hates it, and it hurts more than she can imagine. She cries and looks forward to her sissy dresses, her frillies, her bonnets, petticoats and smocks for Penelope Pansy is a fragile loveable sissy who will always be obedient.

Finally, she is warned that extreme disobedience will merit a one-hour caning or strapping. Should she ever, ever be found to have interfered with her nappies, should she make any attempt to escape, should she ever be very, very naughty, then one full hour of the cane will ensue.

After a quick cuddle, it is time to shave and wax sissy's nappy area. Mummy must denude the sissy. It is frightfully unhygienic to have an unshaven poopy, wet nappy area. The submissive, obedient and still naked sissy is led to the bathroom for initial preparation. Firstly, Mummy runs the bath, then she lies the sissy down on the floor and soaps up the nappy area before gently shaving all remaining nasty hair away. Mummy takes great care not to hurt her infantile delicate cute sissy baby. She places wax strips over the area to remove all final residue of hair. Sissy whimpers as the strips are removed, but baby knows it is for the best, and knows it is to help her be a good sissy, to help Mummy keep the nappy area clean and

free from rash. Fifteen minutes later, a soft hairless, smooth, waxed and shaved sissy bottom and the nappy area is ready. Sissy is then treated to a luxurious, smooth, sweet-smelling hot sissy bath, with lots of bubbles, suds and scents. Sissy dreams of her sissy hood and all the delightful clothes she will wear as Mummy sponges her clean, the last vestiges of man hood being washed away forever. Her Mummy is so kind, generous and gentle. Eventually, the sweet-smelling sissy in transformation is ready for the next step.

However, before the next step, one more critical thing has to be done. A sissy baby is there to pleasure the Ladies, not herself. A real sissy baby like Penelope Pansy must never be able to pleasure herself in her nappy, never again. Creamies are to be strictly forbidden. Sissy is destined for chastity. Forevermore, her teeny tiny teat is to be locked away, pleasure always to be given with the tongue, never with anything else. Penelope Pansy will worship the Ladies' feet, breasts and that most sensitive of places, a Lady's vagina but in particular, the sissy baby will become an expert at worshipping a Lady's bottom, but only with the tongue and nothing else but her tongue. Her teensy teat has to be locked away under wet and soiled nappies, never to escape. Ecstasy is to be the Ladies' prerogative only, to be brought on by an expert, sensuous sissy tongue.

Mummy Governa Raj pours ice-cold water over the tinkle and watches it shrink before her own very eyes, shrinking into nothingness. Another cube or two such that the microscopic tinkle teat is barely visible to the eye. Mummy encases what's left in the black leather pouch. She teases Pansy about never seeing her teat again, about how the key will be lost forever. This time, Mummy will make sure there is no escape from the pouch. It will be fastened down to the very last hole such that there can be no escape and then the key will be thrown away, destroyed so that sissy has no hope of release. Teat and plums are gone forever until the castration doctor comes to make them *really* gone forever, to make Penelope Pansy a true sissy! Mummy bids sissy to take one last look at her teat before

it is locked away and eventually, at long last sissy is ready for her nappies, plastic panties and frillies.

The Visit: A Sissy Baby Story
General Sissy Dolly

The red-bottomed naked sissy crawls after Mummy to the nappy room. Mummy soothes the sore bottom. She introduces sissy to the nappy. She tells her that she will never ever be out of nappies, she will be permanently swaddled in huge thick nappies. She makes sissy kiss the nappy and promise Mummy and the nappy that she will love her nappies, that she will make wee wee and poo poo in her nappies. Sissy faces the nappy and solemnly promises to do wee wee and poo poo in the nappy. Mummy rubs rash cream all over the soft smooth nappy area until it is a sea of white cream, and that special rash cream smell pervades the entire room. Mummy tapes her sissy baby into the first disposable but then orders sissy to turn over and kneel up on the changing table.

“Be a good baby and make your wee wee, that’s it, nappies are for wee-wees, you must always be wet so do your wetties into your nappy.”

As baby opens up and floods her nappy Mummy praises and cuddles the wonderful sissy baby.

“Now Penelope Pansy, do your poo poo. Yes sissy, for you are to be permanently wet and soiled, always to have a dirty poopy bottom. Off you go and do your poo poo! Make a big poo poo mess in your nappy for Mummy. What, no poo poo coming? well just this once I will let you away with it, but it will come sissy, mark my words, an immediate wetties and poo poo into every fresh nappy. A sissy baby to be permanently swaddled in both wet and soiled nappies.”

Mummy bids sissy to lie down again before expertly taping a second disposable into place soon followed by two thick terry nappies plus of course the plastics. Firstly, thick crinkly tight-fitting plain plastic pants after which a soft pink plastic panty is rolled up over the great huge mass of padded baby bottom. Again, Mummy encourages sissy to start wetting and pooping her nappies and to get used to being swaddled in thick wee-wee-filled nappies. Napped and pantied, Mummy prepares sissy for her sissy dolly make over.

The Visit: A Sissy Baby Story

First up is the corset, pink of course, specially designed to keep the sissy tummy in, to allow for the massive expansion of the hips which of course will be exaggerated by the nappies. The hourglass is back in fashion for sissy babies. Mummy measures the naked sissy waist. 33 inches she tells sissy baby. "My goodness! Way too high for a baby. Between corsetry and the special wee wee diet, sissy will soon be down to 26 inches, not an inch more. She tightens the beautifully inlaid pink garment such that sissy is down to 31 inches before letting sissy see herself in the mirror. The sissiness is beginning to shine through, and Mummy begins to see the reward for her work.

Next, before all the frillies, has to be the makeover. The sissy baby dolly-in-waiting is led to the bathroom, sits down in front of the mirror and takes delight as Mummy carefully and subtly does the makeover - face masks, foundation, light makeup, eye liner, false eyelashes, lipstick, long false finger nails plus of course a light pink nail polish for both hands and toes not to mention hand creams, moisturisers, lotions and other sissy whatnots. It is all there, a veritable sissy baby dolly feast! But all done to perfection, not too much, not too little. This is a gentle and caring beautiful sissy baby not a sissy slut so everything is obvious but nevertheless understated. It takes a while for Mummy to get the desired look but eventually, the sissy is ready for her wonderful petticoats, dresses and bonnets. Mummy selects a pair of pink tights and rolls them up sissy's legs followed by a huge pair of ultra frilly bloomers designed to cover the massive expanse of nappied bottom. Next up is layer upon layer of petticoats before finally, it is a sumptuous pink frilly dress and matching pinny. Masses of white frills, ribbons and lace cover the adorable dress that is a perfect fit for a sissy dolly.

Sissy feels delirious in her wonderful outfit, the shame of her already wet thick nappies already forgotten. Mummy gives her a big cuddle before rolling elbow-length gloves up baby's arms. Now the wig and bonnet need to be selected. Mummy struggles to make up her mind about which is more adorable - the huge pink wig adorned with ribbons or a simpler blonde wig with simply the most divine

The Visit: A Sissy Baby Story

biggest bonnet sissy has ever seen. Mummy eventually opts for the wig and bonnet reserving the option to change at a later date. Last but not least is the shoes. Flat pink sissy baby shoes or perhaps as this is a sissy baby dolly a shoe with a heel is appropriate. A shoe with a heel is selected, not too high but enough to make sissy training poses and walking difficult, enough to make life a little bit more difficult for the sissy baby dolly.

At last, the baby dolly is ready, the supreme sissiest baby dolly the whole world over.
